### **Great ideas for round tables \***

Round tables have a good centre space to decorate with flowers. Low designs work well, so guests can easily see over the blooms. Tall designs need to hover above the guests heads so they can comfortably interact with each other while sitting.

lush posy in a low glass vase from \$80

an eclectic collection of vessels with blooms (jars, bottles, vases). Vessels can be simply filled with just a few stems or have heavy fill of blooms.

consider using a few different designs across the room to give interest & variety - this idea looks great at big weddings with more than 10 tables.

glass fishbowl vase with internally arranged blooms.

tall vase designs on round tables are most suited to large venues with high ceilings. Designs can be sculptural with the inclusion of branches & architectural flower types. Tall waisted vases or pilsner vases are lovely for soft, full & flowing designs.

perhaps consider combining a low or tall design with small bud vases, votives &/or a mirror for added interest

**Balloons:** Assorted sizes, colors, patterns and designs bouquets, latex or mylar.

### **Great ideas for rectangular tables \***

Typically, restaurant size rectangular tables are narrow, so space is limited once the table is fully set with glasses, plates etc. Low designs sit well in this space, and may include:

An collection of vessels with blooms (jars, bottles, vases) with a light or heavy fill of blooms.

a series of small posy vases (fishbowls, cube, squat cylinder)

a garland of vines & blooms

### **Ideas for cocktail, reception table, coffee or bar tables\***

Low designs are most suitable so there is a little chance they will be tipped over.
